

SECTION I - PRODUCT IDENTIFICATION**Product Name:** ElimO® Veterinarian**Manufacturers Name & Address:**Greenway Products Inc.
4320 Greenway Drive
Knoxville, TN 37918**Emergency Phone:** (800) 424-9300 (Chemtrec)**Information Phone:** (865)524-4220**Revision Date:** 2014.08.14**Preparer:** M. Werle**NFPA Rating Health: 1 Fire: 1 Reactivity: 0**

0- Minimal 1- Slight 2- Moderate 3- Serious 4- Extreme

SECTION II - HAZARDOUS INGREDIENTS

CHEMICAL NAME	CAS Number	%WT	OSHA PEL	ACGIH TLV
Isopropyl Alcohol	67-63-0	5-15	400 ppm	450 ppm
Nonylphenol Surfactant	9016-45-9	1-10	N/D	N/D
Confidential Compound	None	1-10	15 ppm	N/A

SECTION III - PHYSICAL and CHEMICAL PROPERTIES**Boiling Point:** 190 °F**pH:** N/D**Solubility in Water:** Soluble.**Appearance/Odor:** Clear liquid with pleasant aroma.**Vapor Density (Air=1):** 2**Volatile %:** 95**Specific Gravity (H₂O=1):** 1.01**Evaporation Rate (Water= 1) :** <1.0**SECTION IV - FIRE FIGHTING MEASURES****Flash Point:** >145 °F**Extinguishing Media:** Water fog, dry chemical, alcohol foam, or carbon dioxide is recommended.**Flammable Limits:** Lower: N/A Upper: N/A**Fire Fighting Procedures:** Combustible. Product is not known to present a fire hazard. Cool fire-exposed containers with water spray to prevent pressure build-up and possible rupture.**Fire Hazards:** Under extreme fire conditions vapors become present and are heavier than air. Vapors may travel across the ground and reach remote ignition sources.**SECTION V - STABILITY AND REACTIVITY****Stability:** Stable under normal use conditions.**Conditions to Avoid:** Constant exposure to high temperatures and/or for prolonged periods.**Incompatibility:** Avoid contact with strong oxidizing agents.**Hazardous Decomposition Products:** Oxides of Carbon and smoke particulates.**Hazardous Polymerization:** Will not occur.**SECTION VI - STORAGE AND HANDLING****Precautions to Be Taken in Handling and Storage:** Do not use in confined spaces. Always store in tightly sealed original container. Drum sized containers should be grounded to prevent electrostatic accumulation hazard. Store in a cool, dry well ventilated area.**Other Precautions:** Follow Label Instructions and Precautions.**SECTION VII - HEALTH AND FIRST AID****Skin:** Slightly irritating. Repeated or prolonged contact can cause defatting, cracking and drying.

Eyes: Slightly irritating. Irritation causing stinging, burning sensation accompanied by tearing, redness or tissue swelling.

Inhalation: High vapor concentrations are expected to be irritating to the nose, throat and respiratory system.

Ingestion: Irritating to the gastrointestinal tract, causing gastric distress, diarrhea and vomiting.

SECTION VII · HEALTH AND FIRST AID (continued)

FIRST AID PROCEDURES:

Eyes: Flush with large amounts of cool running water for at least 15 minutes. If irritation persists get medical attention.

Skin: Wash skin with soap and water. If irritation develops seek medical attention.

Inhalation: For excessive inhalation remove to fresh air. If breathing is difficult seek medical attention.

Ingestion: DO NOT induce vomiting if reflexive vomiting occurs. Additional inducement will cause voluminous projectile vomiting. Liquid can directly enter the lungs (aspiration) when vomited. Serious lung damage and possibly fatal chemical pneumonia (chemical pneumonitis) can develop if this occurs.

To induce gentle vomiting have patient touch back of the throat, keep head below hips to prevent aspiration. Seek immediate medical assistance.

SECTION VIII · EXPOSURE CONTROLS / PERSONAL PROTECTION

Eye Protection: Eye Protection when pouring. Goggles, safety glasses with side shields or full-face shield are recommended.

Respiratory Protection: Where adequate ventilation is not available an approved respirator must be worn.

Ventilation: General Mechanical ventilation to prevent TLV from exceeding control limits. Keep below 400 ppm.

Protective Clothing: Selection of protective clothing depends on potential exposure conditions.

Other Equipment: Eye wash station and sink for washing.

SECTION IX · ACCIDENTAL RELEASE MEASURES

Small Spill: Stop source of spill or leak. Absorb on inert media and collect into suitable container.

Large Spill: Shut off or plug source of spill or leak. Dike area to contain spill. Salvage as much liquid as possible into a suitable container. Absorb residual on inert media and collect into suitable container.

Waste Disposal Method: Follow local, state and federal regulations for disposal.

SECTION X · TRANSPORTATION

Proper Shipping Name: Not DOT Regulated

Hazard Class:

UN Number:

N/A= NOT APPLICABLE · N/E=NOT ESTABLISHED · N/D=NOT DETERMINED · <=LESS THAN · >=MORE THAN
